The green heart of CWS

Small footprint, green heart

Minimising our ecological footprint has been our goal for many years now.

The traditional textile industry is among the biggest contributors to the global greenhouse effect. Here at CWS we foster a different tradition. Long before the term "circular economy" was even invented, we prided ourselves on offering environmentally friendly reusable solutions and established sustainability as one of the major components of our day-to-day business.

The prudent use of resources and raw materials is still a guiding principle for our actions. CWS' aim is to become the most sustainable company in the industry by 2024. The Workwear division is also taking on a new dimension with its consistent focus on environmental protection. CWS has accepted the challenge of designing all new solutions to be more environmentally friendly.

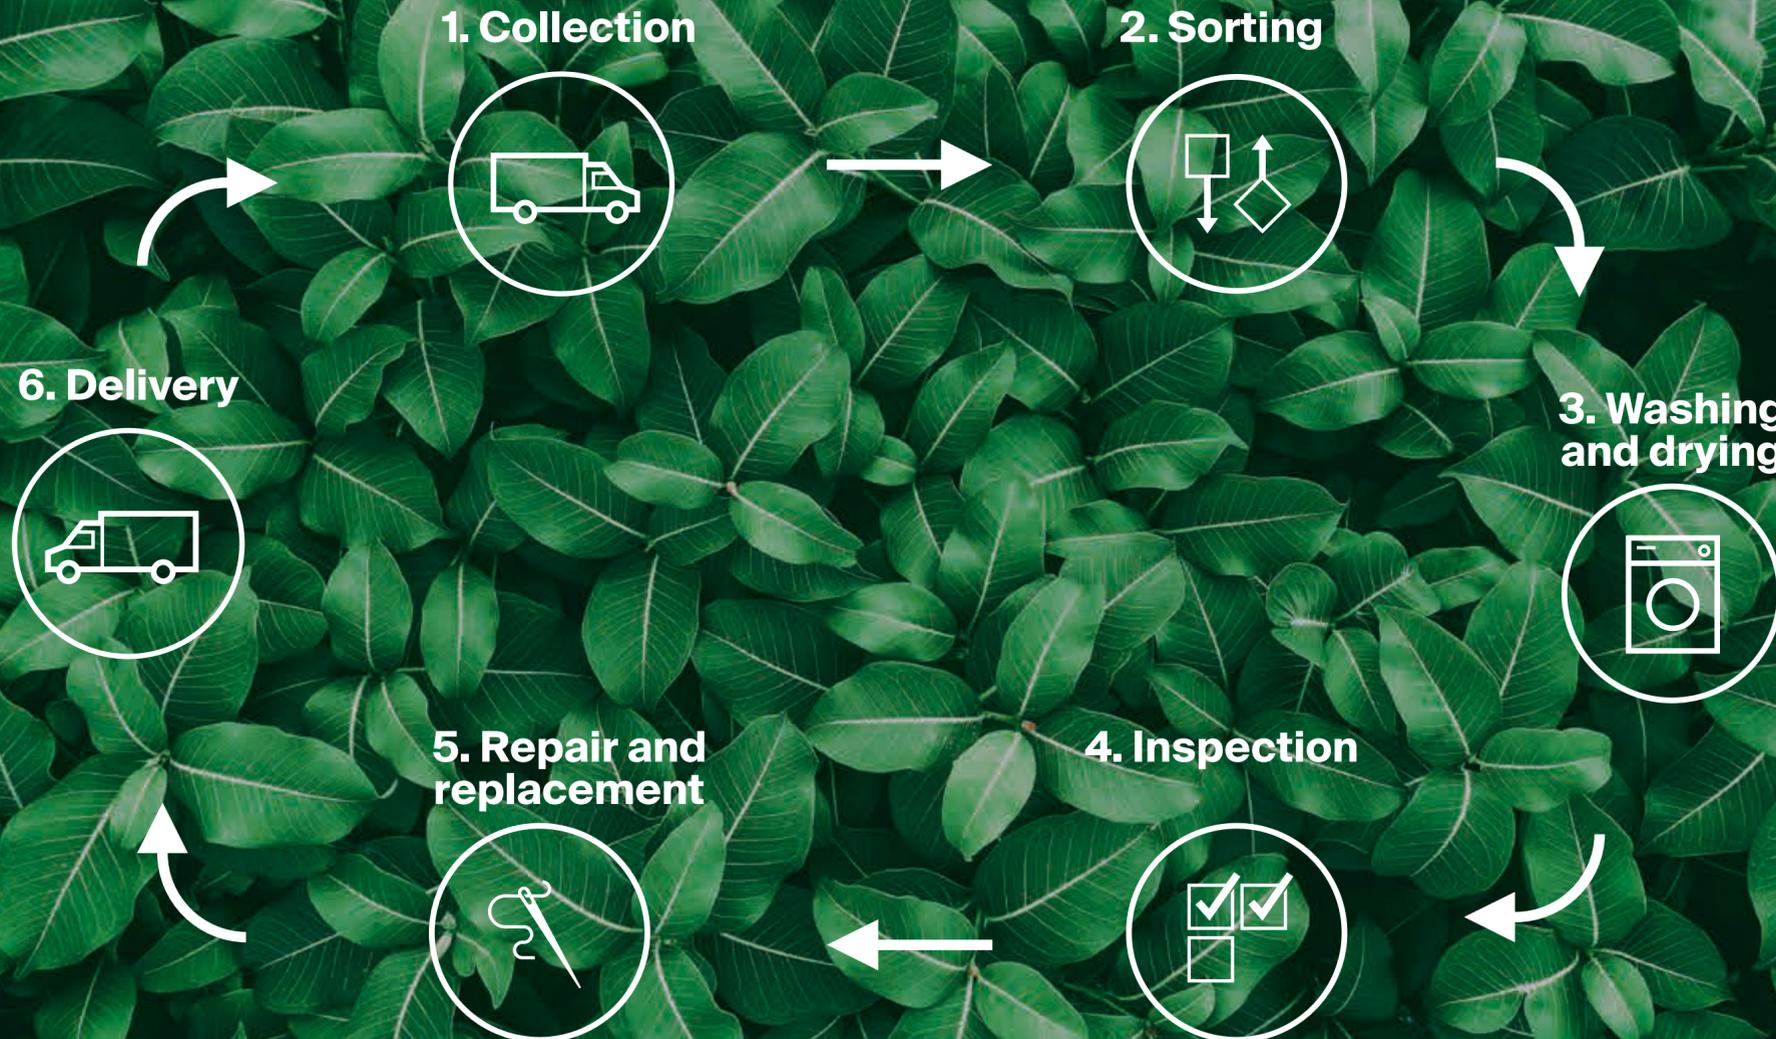

In the future, you will be able to recognise sustainable workwear from CWS Workwear by its "Know what you wear" label.

In the 2020 EcoVadis rating, CWS-boco Deutschland GmbH managed to improve on its result from the previous year and achieve platinum status - meaning it now ranks among the top 1 per cent of EcoVadis-rated companies.

The international rating agency EcoVadis rates companies in terms of the quality of their CSR management system. The rating is based on 21 criteria classified into four categories: environment, labour and human rights, ethics and sustainable procurement.

The CWS service cycle

Our cotton

For an all-round great feeling: produced fairly, comfortable to wear and great looking too.

For us, fair prices and good working conditions for our cotton producers in Asia and Africa are essential, which is why we favour the use of Fairtrade-certified cotton. In fact, we exclusively use Fairtrade cotton in our Cotton Line Collection.

The cotton volumes required to produce the Pro Line, Compact Line and Base Line collections as well as our new 220days range are grown and traded according to Fairtrade regulations to enable cotton farmers to enjoy greater equality.

With our garments, you can show the world that your company also embraces social commitment. After all, we don't just wear clothing, we also bear responsibility.

Find out more at: www.info.fairtrade.net/sourcing

84%

of consumers in Germany trust the Fairtrade label. Utilise the high level of recognition and credibility for your clean cut image.

Mix & match

**Combine and benefit:
Equip your team with items
from our various collections.**

MIX & MATCH ACROSS ALL AREAS

MATCH

A uniform appearance for your entire company

MIX

Combine multiple colours and yet still achieve a uniform look

MATCH

Uniform across all areas – products for different requirements all go together well

MIX

Use items from various collections in one company

MATCH

The right trousers for the right job – different material characteristics for all requirements and tasks

220days

**Comfortable, convenient, inspiring -
all 220 working days of the year**

Completely sustainable: CWS is again relying on its tried-and-tested partnership with Fairtrade for the sourcing of the cotton for the new 220days workwear. Plus, the remainder of the collection comprises recycled polyester.

All information on the sustainability of our workwear can be found on page 8 and at cws.com.

220days

Technically outstanding with uncompromising functionality

A regular working year comprises 220 days. For all those searching for the perfect equipment, we have developed clothing with our 220days concept that workers simply won't want to take off again – for a whole 220 days.

We set out to revolutionise the world of workwear with a work jacket and trousers offering the same advantages that sports and outdoor clothing have been boasting for years:

ultimate performance and absolute wearing comfort.

One jacket for 220 days

Technically outstanding. Uncompromising functionality.

GORE® clothing is the ultimate high-performance clothing of our time. In our search for perfect equipment for everyone who wants more, we came across a partner which tests its clothing on the front line, in the harshest of conditions.

Together, we set out to revolutionise the world of workwear with garments offering the same advantages that sports and outdoor clothing have been boasting for years: ultimate performance and absolute wearing comfort.

The 220days work jacket was developed in cooperation with GORE® and impresses with its unique combination of materials. Light and breathable like an outdoor jacket, it is extremely comfortable to wear. The high-quality finishing and resilient fabric of the front panels and sleeves also make it particularly robust.

When wind and draughts prevail, the jacket protects against the wind chill effect and the associated overcooling. On warmer days, it also offers maximal breathability, as there is a breathable Windstopper® membrane integrated at all

points where sweat can accumulate. Cooling mesh fabric additionally guarantees high wearing comfort in the inside. Not only that, the modern, asymmetrical cut of the unisex design makes a sporty impression.

- Suitable for all genders thanks to unisex cut
- Particularly sturdy and resilient
- Light and breathable
- GORE®-tested protection against wind and moisture
- Compatible with all CWS Workwear collections – giving your employees a uniform appearance
- Sustainably produced: the front panels of the jacket comprise 65% recycled polyester and 35% cotton from the Fairtrade programme

Protection against overcooling resulting from wind chill effect

Protection against moisture

Breathable to combat heat and cooling thanks to mesh fabric

The trousers that can do everything

Did you know? The choice of the right trousers is essential for the feel-good factor. Our 220days trousers were designed with optimal comfort in mind – and the 4-way stretch fabric ensures it. From crouching to bending over, climbing stairs to working on your knees – these trousers adapt to every activity.

Now that's what we call optimal freedom of movement. What's more, they feel nice to wear. Sustainable materials increase the wearing comfort even further – in both the men's and women's versions. Put simply, the 220days trousers do their job so their wearers can do theirs.

- Flexibility for all motions
- As comfortable as your best sportswear
- Particularly sturdy and resilient
- With knee pad pockets
- Tailored cuts for men and women
- Compatible with all CWS Workwear collections, giving your employees a uniform appearance
- Sustainably produced with 65% recycled polyester and 35% cotton from the Fairtrade programme

and in the future.**

WORKWEAR

CWS

Here at CWS, we have set ourselves the goal of making the world a better place – not just today, but also tomorrow and the future. As such, sustainability is a matter particularly close to our hearts!

We have developed solutions which contribute to conserving our blue planet now and for future generations. How do we do that exactly?

Our service cycle allows us to extend the service lives of our products and combat raw material shortages. In addition, we offer products made from recycled polyester in order to reduce the use of new resources even further and ensure a better future.

The polyester content of our Pro Line collection is composed exclusively of REPREEVE® fibres. These are harvested from recycled plastic waste and impress with their particularly reliable and durable quality.

Collection, sorting and washing of recyclable materials

Chopping into flake, melting down and reshaping

Further processing to produce 100% recycled fabric fibres

Cotton Line

Fair suits everyone.

COTTON

All the cotton is farmed by Fairtrade producers as well as being certified and traded in accordance with the Fairtrade standards. Fairtrade promotes better working and living conditions for cotton farmers as well as environmental protection.

More info: info.fairtrade.net/sourcing

Sustainable and sturdy

We set new standards for sustainable workwear with our Cotton Line! Cotton Line is produced using Fairtrade cotton.

Fans of cotton workwear prefer this natural material as it is more comfortable to wear and softer than a blend.

The collection contains comfortable workwear offering plenty of freedom of movement for trade and industry.

**No one else offers you:
100% robust,
100% sustainable,
100% organic cotton,
100% naturally fair.**

Compact Line

Simply uncomplicated

Uncomplicated, modern, professional

There's no stopping some people, and they need clothing that can keep up with them. That's why our Compact Line is particularly robust – due to the resilient blend of polyester and cotton. The fabric's structure withstands daily wear and tear, plus the blend of 35% cotton and 65% polyester offers the perfect basis for optimal moisture regulation. That makes the garments even more comfortable to wear, even when work brings you out in a sweat.

And as the Compact Line feels like wearing a second skin, it also proven to be friendly to your own: the whole collection has been tested for hazardous substances and corresponds to the Oeko-Tex 100 standard.

Likeably down-to-earth

Likeably down-to-earth

With its high-quality finishing and intelligent details, the workwear in the CWS Base Line range is ideal for use in a wide variety of fields in the industrial, logistics and service sectors.

The ideal basis for your working day. The design sticks to single colours highlighted with contemporary contrast stitching. Thanks to a blend of polyester and cotton, the material is also comfortable to wear.

Emblem service. Show off your good name.

Embroidered emblems

- Choose from the basic shapes (rectangular, square or round)
- We equip your workwear optimally with the emblem of your choice

Name tags

- Name tags enable people to address your employees directly
- Select the colour of your choice

Direct embroidery

- Your company emblem lends a uniform appearance to your employees' clothing
- The logo is embroidered directly onto the item

Logo combination

- Combine the embroidered emblem with a name tag for the perfect company image

Association emblems

- Membership is a sign that the company is a master of its trade
- Stand out from the competition

Back emblems

- Back emblems are not overlooked in everyday chaotic situations and advertise your company even from far away

Was that everything already? No!

Colleagues shift shifts, do this job today and that one tomorrow, work indoors and outdoors: CWS Workwear offers you an extensive range of industrial and trade clothing, personal protective equipment (PPE), protective clothing for welders and t-shirts, polo shirts, sweatshirts, shirts, softshell jackets and trousers.

Please ask your CWS customer consultant about our other catalogues and offers.

All catalogues are available to download at [cws.com](https://www.cws.com)

CWS basics

Uniform down to the last thread:

our basics are perfectly attuned to all collections and can thus be mixed & matched without any limitations. Their soft feel against the skin makes them the perfect basic item.

Personal protective equipment

Stay safe:

the right protection is especially important in dangerous situations. Protective clothing that has to do even more can be found in the PPE catalogue.

Titel aktualisieren?

Welding protection

Heat, molten metal and electricity:

a job associated with a variety of different hazards – welders are exposed to many risks, which is why the right protective clothing is all the more important. An overview of all forms of certified protection can be found in our Welding Protection brochure.

High-visibility and protection against the elements

Dark, cold and wet:

your employees should be particularly protected at times when nobody goes outside by choice. Check out our High-Visibility and Cold-/Weatherproof Clothing brochure for more information.

CWS specialist locker service

Neat and safe:

Lockers guarantee order and security, ensuring your workwear is ready for use every day without any problems. Fresh clothing appears every week as if by magic – our specialist locker service makes this possible.
